

Interview with Eric Pearl
By Amy Hallows, Hado Instructor

Dr. Eric Pearl, Amy Hallows, Hado Instructors, Dr. Masaru Emoto

I had the pleasure of meeting Dr. Eric Pearl for the first time last August at the Mastery Conference in Los Angeles (www.thereconnection.com/news_june21_2007.html), that Dr. Emoto attended as a seminar presenter. I attended the entire conference, and it was an amazing experience, with many well known and cutting edge scientist, healers, speakers, writers, ministers, teachers, philosophers, and visionaries, including: Terry Cole-Whittaker, William A. Tiller, Lee Carroll, John Hinwood, James Sigafoose, Gary Schwartz, Lynne McTaggart, J.J. and Desieree Hurtak, Doug DeVito, Pat Atanas, Dr. Masaru Emoto, and of course Dr. Eric Pearl. It was an astounding line-up of some of the best thinkers and teachers of our time, and an outstanding week of inspiration and investigation. Dr. Pearl is the author of the international bestselling book *The Reconnection Heal Others, Heal Yourself*, which has now been published in 27 languages. He is an internationally recognized healer and was once the owner of the second most successful and largest chiropractic businesses in Los Angeles. Often referred to as “Chiropractor to the Stars.” He stepped away from all of that, when this new energy work called “The Reconnection,” began coming through him in his chiropractic and healing practice, and his patients began reporting astounding and miraculous healings from such things as cancers, AID related diseases, epilepsy, chronic fatigue syndrome, multiple sclerosis, rheumatoid arthritis and osteoarthritis, birth

disfigurements, cerebral palsy and other serious diseases. All this happened as Eric simply held his hands near them. In addition, his patients started channeling information to him, from an unknown source. It was verified repeatedly, over a period of many months, by many different patients, as they consistently seemed to be channeling many of the same messages to him about this new energy work he was now doing. These miraculous healings and the messages being channeled to him from his patients, finally convinced Eric to finally give up his 12-year successful chiropractic business, and devote his life to practicing, and subsequently teaching this healing work. Since then, Eric devoted his life to traveling around the world, practicing and teaching this healing work, writing and publishing his book, touring giving workshops and seminars, and teaching thousands around the world (over 33,000 practitioners to date), how to do this new energy work themselves.

Eric has been interviewed and appeared on countless television program around the world, as well as, having been invited to speak at such prestigious venues as the United Nations, Madison Square Gardens (to a sold out audience), and had publications in such prestigious papers, as the The New York Times. Not only have metaphysicians, scientists, philosophers, and healers of all types been attracted and interested in the miraculous work Eric has been doing, but such notable institutions such as Jackson Memorial Hospital, UCLA, Cedars-Sinai Medical Center, the VA Hospital, University of Minnesota, University of Miami Medical School and the University of Arizona (where he addressed physicians at the request of Dr. Andrew Weil), have also been interested in what Eric is doing. Research programs on Eric's work have been facilitated under the guidance of such renowned research scientists as Gary Schwartz, PhD of the University of Arizona, William Tiller, PhD, and others.

Dr. Emoto recently joined Dr. Pearl as a presenter once more, at the last Mastery Conference, which took place in Hamburg Germany in June. It included another impressive array of presenters (www.thereconnection.com/seminars/Hamburg2008/). This was the first ever European Mastery Conference. Dr. Pearl and Dr. Emoto will present again together in Los Angeles California, at the next Mastery Conference, which will include another astounding line-up of seminar presenters. The conference is currently scheduled for September 18-21st, of 2008. Several days preceding the conference will be devoted to personal instruction by Dr. Pearl in the new energy work "The Reconnection." Don't miss this extraordinary opportunity to learn this energy work and/or attend the conference, and an opportunity to listen to and study with, some of the most interesting, cutting edge, and even controversial minds of our time. It promises to be another mind-altering experience. You may visit a slideshow of last year's conference at www.photoshow.net/amyhallowes/dr__emoto_events, which includes some highlights of, last year's conference.

Eric now travels the globe extensively throughout the year, bringing the light and information of "Reconnective Healing" onto the planet. He teaches you how to activate and utilize this new, all-inclusive spectrum of healing frequencies, that allow us to completely transcend "energy healing" and "technique" to ***access a level of healing beyond anything anyone has been able to access prior to now!*** To date, he has taught

more than 33,000 Reconnective Healing Practitioners in more than 55 countries, bringing about a spontaneous generation of healers worldwide. “You can read Eric’s full story about how this work literally came to him and through him, on his website at: www.thereconnection.com/dreericpearl/history or in his bestselling book *The Reconnection Heal Others, Heal Yourself*. An amazing story it is, as to how this new andt profoundly powerful work came into Dr. Pearl’s life, and literally into his hands.

I was so intrigued by “The Reconnection” work, that during the conference, I scheduled several sessions with one of his practitioners for myself. Dr. Emoto also had a session with Dr. Pearl, which was filmed and recorded. I had what are called Reconnection Sessions (they take place in two parts at least a day apart), in which you are reconnected to the gridlines/energy system of the planet, followed by a healing session. I must admit I was quite astounded, not by what necessarily happened during the sessions (but I definitely noticed a lot happening), but what I REALIZED had happened (later) and some of the events which followed the sessions. I had only read the first half of Dr. Pearl’s book before attending the conference as time permitted, so I knew about his story and the work, but the second part of the book contained information on what exactly takes place during a session and how they are done. That part of the book, I had not yet read. As divine intervention would have it, that was a good thing, it was perfect. I went in completely open, unexpectant of what was to take place, and very receptive, without any preconceived ideas of how the sessions would go, what would take place, or what the results would be. To my astonishment later, when I read the second half of the book, I realized what I had experienced were very real and valid manifestations of the work taking place, not just some random odd responses on my part. These were definite signals and cues (that I did not understand at the time of the session), and were definite confirmations, (which I later learned upon finishing the book) of the work actually taking place. These particular signals and cues had been documented consistently through countless clients and patients during many sessions over long periods of time, by Dr. Pearl, and by his practitioners. These cues and signals are called “registers,” and are visual and physical manifestations and confirmations of the work taking place.

Having such a profound experience, I decided I wanted to speak further to this interesting man bringing forth this new energy work, this new frequency of healing, and find out more about it. I have been a certified Reiki Practitioner for many years. I have also practiced and experienced the healing benefits of Reiki, Jorei, flower remedies, crystal therapy, some of the new frequency healing devices, along with a myriad of other healing techniques for the last quarter century, but this “Reconnective Healing,” seemed different. As Dr. Emoto might say, I felt I really **resonated** with Dr. Pearl’s work.

One winter afternoon just before Dr. Pearl was to leave for a tour in Japan, he kindly agreed to meet me in his office with another Hado Instructor, Ikuyo Koinuma, to talk with us more about the work he is practicing and teaching around the world. We began our conversation with some lighthearted laughter and a little discussion on our various backgrounds, including the fact that I am a certified Reiki Practitioner, but that I had always felt something didn’t quite feel complete for me with that work. I had been looking for (or more accurately I would say, waiting for) something different. I didn’t

have any idea of what that was, because I had not found it or heard of it yet, but I intuitively felt that there was something else. That true healing need not come with a lot of bells and whistles, special rituals, movements, chants, etc., that God, the Universal Higher Power, needed only to use us as a channel for divine healing to take place. We needed to simply stand aside and be guided through the one infinite power and mind, (to be a conduit of sorts – a receiver and transmitter, so to speak), to allow the frequencies of love, light, information, and healing to pour from our hearts, into our hands, and directly into our clients. In beginning our conversation about the various energy work out there, Eric had some very profound things to say, that cut right to the core of what I had always felt intuitively and inherently, to be the Truth concerning energy work. This is what Eric had to say.

ERIC:

“Two things seems to be happening with Reiki (which term I use generically, as I find aspects of it in many of the healing techniques from Qi Gong to Jorei, Jin Shin, and all the other energy healing techniques.) **YOU DO MORE TO GET LESS.** The contradiction is that the more we do, the less we receive. The more we talk, the less we hear. The more steps we go through, the less we bring through. The more things we try to do right, the more we bring in the consciousness of fear that we might be doing something wrong, and fear constricts and closes off and limits what comes our way. **WHEN WE WORK FROM A POSITION OF LOVE, WE OPEN AND INTERACT WITH THE UNIVERSE IN THE FULLEST.** When we work from that position of love, there are no steps for us to be afraid that we might do incorrectly, move in the wrong direction, or do a number of odd things. For example, one technique says go clockwise, not counterclockwise, the other technique says go counterclockwise, don’t go clockwise. And neither one of them tell you whether clockwise is from your perspective as a practitioner to me, or from my perspective looking out, because it is all an illusion. It’s all a fear-based illusion. It’s not that it’s bad. The gift of this illusion is that it offers us the opportunity, or you could say, challenges us, to recognize that it is an illusion and step through it. **AS LONG AS WE FEEL WE HAVE TO DO IT A CERTAIN WAY WE ARE LOOKING AT THE FEAR AND SEEING THE ILLUSSUION AS SOMETHING THAT IS REAL.** Then the universe says yes. When we are willing to step through the fear of how we do it, the universe says Thank You Very Much,. You Have Just Moved to the Next Level.”

In speaking about how this work came to Eric, we discussed the differences between this work and some of the other healing modalities or “energy work.” This is what Eric had to say.

ERIC

“You have to interact with this energy to be able to use it. You cannot just Om it in. You do have to interact with it. Part of this is the lesson of not just saying you have overcome your ego and can just do this work because all is ONE, but actually overcoming your ego and interacting with this energy, in order to use it. You cannot just say you can have it because you want it; you can’t, you actually have to interact with it. **ONCE YOU LEARN THIS WORK YOU WILL BE ABLE TO FACILITATE HEALINGS AS**

WELL AS ANY OF THE HEALINGS I AM ABLE TO DO, OR AS WELL AS ANY HEALER ON THE PLANET, WHETHER THEY WERE RAISED BY MONKS IN A CAVE, ON A MOUNTAIN TOP IN TIBET, OR IN A MONASTERY IN BRAZIL, IT JUST DOESN'T MATTER. BECAUSE ONCE YOU ACCESS THIS, IT TAKE US BEYOND ANY AND ALL OF THE ENERGY HEALING TECHNIQUES INTO A NEW CONTINUUM, A NEW SPECTRUM, THAT INCLUDES ALL OF THOSE WITHOUT HAVING TO DO ANY OF THE TECHNIQUE, AND IT TAKES US BEYOND ENERGY INTO LIGHT AND INFORMATION.

AMY

I wanted to talk to you about Dr. Emoto and how your work relates to what Dr. Emoto is doing.

Also, he did have a miraculous healing a number of months ago from a life threatening illness, and it related to the condition you had worked on him with back in June. Perhaps that work had something to do with the incredible healing he had. It was quite beyond what any of the Drs expected and was quite remarkable and came about quite spontaneously. After about 59 days of hospitalization he suddenly began to heal, and the Dr.'s did not have an explanation. He was able to cancel a surgery that had been scheduled, and was released from the hospital. Your work done just a few months before, along with the many prayers and good intentions from around the world, I'm convinced, contributed to his remarkable recovery.

ERIC

The head of the publisher "Natural Spirit," set up a meeting for us.

AMY

Did you feel that you really resonated with Dr. Emoto? What was it like when you met?

ERIC

We sat at a round table, and we spoke through a translator and at first, I didn't get the feeling that he liked me. I thought, Oh My God, I'll just put up with this and continue and have the conversation. Maybe he thinks I am wasting his time or something. Then he asked me what my sign was.

AMY

Which is?

ERIC

I think I said I am the lamb. and he said he is the sheep. Which are the same you know.

AMY

Oh, yes, in Chinese Astrology.

IKUYO

In Japanese Astrology too.

ERIC

Yes, so since I am younger, we agreed I would be HIS lamb, and he would be the sheep, since I am younger.

AMY

Then what did you do

ERIC

We did the water experiment. We took some tap water from the Tokyo city water, and I charged it with the “Reconnection Energy,” and they took it to have the water crystal photographs done, or see if they could even get any. He said he wanted to see what I could do.

AMY

Can you send me the image; I’d love to see it.

ERIC

Here is a photograph of the water crystal image taken from the tap water that was exposed to the “Reconnective Energies”. Dr. Emoto’s people in Japan did not think that a crystal would form at all because it was taken with a sample of tap water (which I was told normally will not form a crystal), but we got this beautiful crystal. It’s like three crystals overlaying each other. (See image below)

AMY

To me, that would indicate communication from another dimension. When I had my crystal done with prayers I sent to the water embodying the work I intended to do for humanity, and for the earth, a seven-pointed star emerged. Normally with the crystal, you will get six points. A perfect hexagon, that is, if you get a crystal. It was explained to me that 7 points indicates that some sort of interaction is taking place, communication perhaps from another dimension beyond our normal three-dimensional world. Perhaps the *Love Thyself*, where the water is exposed in many cases to prayer. Yours is very unusual. It seems to be three overlapping crystals forming, with a total of 18 points in it’s crystalline structure. It is only my summation, but perhaps it indicates that with this energy, the “Reconnection Energy,” there is communication going on beyond even the 4th or 5th dimension. We know of at least 12 planes or dimensions that exist, but perhaps this crystal indicates communication far beyond any dimension we are even currently aware of at this time. So, Dr. Emoto brought you there to take water samples and crystal images of the “Reconnection Energy?”

ERIC

I don’t know, but that’s what we did.

Eric and I then began to talk about his connection to Japan, and his lifelong desire to spend time there. The feeling of “home,” that it elicits for him, and his love for “EVERYTHING JAPANESE.” Ikuyo and he then practiced some of his newly learned

Japanese phrases for his upcoming trip to Japan, where he would be doing numerous seminars and teaching new practitioners the “Reconnection Energy Work.”

AMY

How did you meet Dr. Emoto?

ERIC

About two years ago. Around September of 2006 when I was doing a seminar there. I was also there in June of 2006 promoting a seminar, so it was either June or September of 2006.

AMY

What do you do in one of your seminars?

ERIC

On Friday night we speak about the healings, we speak about the history of the work, the research behind it, the theory behind it, and then we bring up volunteers from the audience and do live demonstrations from the audience. **Usually once you see it, you see it! Once you see it, you know it is there. In our seeing lies our knowing, and in our knowingness lies our mastery.** The seeing it, gives us the ability to know it. It gives us the ability to master it. For people who want to learn the work, what we do is get a large ballroom for Saturday and Sunday with a stage in the center with chairs on one side, and massage tables on the other. I demonstrate the work and then we all go to the tables in groups of two or four and practice, as I walk around with my advanced teaching assistants (from all over the world). We go back to the chairs and discuss what we did on the tables, and why people’s bodies, fingers, eyes were moving and talk about the philosophy of it. I demonstrate the next method and we go back to the tables and practice again. It is a very hands on seminar. We do the work. What we do is a working seminar. By the end of the weekend, you will be able to do anything and everything that I can do, and as **I said, everything and anything that any healer on this planet can do – as long as – and proportionate to – your willingness and ability to transcend your technique.** Because the technique is both a gift and an encumbrance. It is a gift to a point, and then it becomes an encumbrance. It’s like training wheels on a bicycle. They help you not fall, when you tilt to the left or right, and keep you from getting hurt, but they also prevent you from ever mastering the bicycle until you remove them. It’s the same thing with a healing technique. I can offer you a technique and you can step half way, and each time get closer with each technique, but the illusion is thinking we will ever get there, but we never do. Because, each technique is only a step halfway. Always we add training wheels, but we don’t often learn, because we are not often taught that **the true way to master healing is to remove the training wheels, to transcend the technique. The distinction between the teacher and a master, is that the teacher says come back and learn more, and the master says move forward and learn from within the sounds of your own mind. From**

what you have gotten, now go forward. The teacher is under the illusion that the student needs to be taught, but in the presence of a master, the student needs not be taught, the student simply allows him or herself to learn. Teachers today, not necessarily their fault, are often caught up in creating their income and seeing only their income from their teachings. So, they tell the student to come back and learn more. Come back in five years when the new information is channeled in, etc. When I'm told from the universe the new technique, I'll tell you. Because they don't want to lose their students. They want student retention. The master says, move forward. You have to move forward to make room. Because there is always the next student, as long as there is truth to be taught. Strangely enough, it is some of the teachers who are so invested in their own income, who are a little unnerved by what we are learning from the Reconnection, which is that there is nothing to come back and learn. And, interestingly enough, you would hope, that these teachers would know enough, be centered enough in who they are, to be the first ones to carry the light of this truth out. Instead, as I am sure, is a wise and intelligent plan, the students are showing the teachers. Thank God.

AMY

Isn't that often the way. That the teacher often becomes the student.

ERIC.

Could be. Could be.

AMY

Thank you Eric for this great interview. I really appreciate your time. I look forward to our next meeting and attending your Mastery Conference in September and perhaps even the training.

Dr. Emoto's comment on Eric Pearl's Water crystal

“This water crystal is the result of that Eric Pearl sent his energy into Tokyo's tap water when he visited our office in Tokyo. Tokyo's tap water always cannot create hexagonal water crystals because it contains lots of chlorine which is used as germicidal formation but with his reconnection energy, Tokyo's tap water produced a beautiful hexagonal water crystal.”
